Online Appendix

Who are our experts:
Predictors of participation in expert surveys

Christoph V. Steinert & Andrea Ruggeri

In the Online Appendix, we present Table 1 from the article with standardized coefficients. Thanks for the suggestion to the anonymous reviewers.

Table 1: Logistic regression table

	(1) Completed	(2) Excused
Female (standardized)	-0.328*	0.0723
	(-2.04)	(0.40)
Professor (standardized)	0.0666	0.376
	(0.40)	(1.50)
Academic (standardized)	-0.0129	-0.356
	(-0.07)	(-1.90)
Citations_log (standardized)	-0.302*	0.192
	(-2.08)	(0.85)
Western (standardized)	-0.168	0.309
	(-1.13)	(1.26)
US (standardized)	0.231	0.0234
	(1.43)	(0.12)
Quantitative (standardized)	-0.262	0.0939
	(-1.59)	(0.47)
Match (standardized)	0.757***	-0.435*
	(5.02)	(-2.20)
Emeritus (standardized)	0.142	0.0818
	(1.09)	(0.49)
Elite university (standardized)	-0.126	0.172
	(-0.73)	(1.12)
Year of publication (standardized)	0.258	0.00829
	(1.58)	(0.04)
Political Science (standardized)	0.296	0.854
	(0.74)	(1.66)
Anthropology (standardized)	0.331	0.0600
	(1.38)	(0.15)
Areas studies (standardized)	-0.342	0.663*
	(-1.00)	(2.32)
Economics (standardized)	0.193	0.374
	(1.03)	(1.66)
History (standardized)	0.145	0.609
	(0.44)	(1.36)
Law (standardized)	-0.250	0.267
	(-1.02)	(0.86)
Sociology (standardized)	-0.0311	
	(-0.14)	
Constant	-1.703***	-2.586***
